

MARCUS T. DELGADO

(713) 555-0182 | m.delgado@email.com | Houston, TX | TWIC Card Holder

PROFESSIONAL SUMMARY

Journeyman Pipefitter with 14 years of experience in industrial petrochemical and refinery construction. Proficient in carbon steel, stainless, and alloy fabrication per P&IDs and ISOs. Proven track record leading 4–8 person crews through turnarounds with zero LTIs. Available to travel.

PROFESSIONAL EXPERIENCE

Turner Industries

2018–Present

Journeyman Pipefitter

- Installed and modified process piping systems on crude unit revamp project — 8,000+ hours across two turnaround cycles.
- Led 6-person crew during 2022 turnaround; completed scope 4 days ahead of schedule with no safety incidents.
- Fabricated and installed carbon steel and stainless piping per P&IDs, isometric drawings, and spool drawings.
- Hydrotested, flushed, and commissioned piping on NGL fractionation unit during new construction phase.

Bechtel Energy

2013–2018

Journeyman Pipefitter

- Fit and installed stainless, chrome-moly, and carbon steel piping on Gulf Coast LNG facility construction project.
- Read and interpreted isometric drawings and P&IDs to execute piping runs from tie-in to hydro.
- Supported commissioning team during pre-startup phase on gas processing units.
- Maintained zero lost-time incidents across 5,000+ hours on project.

Turner Industries

2010–2013

Pipefitter Helper / Apprentice

- Advanced from helper to journeyman pipefitter based on performance on refinery construction projects.
- Assisted senior fitters with pipe fit-up, flange make-up, support installation, and hydrotesting operations.

CORE COMPETENCIES

Carbon Steel & Stainless Fabrication | P&ID Interpretation | Isometric Drawings | Hydrotesting | Crew Leadership | Turnarounds & Shutdowns | Socket Weld & Butt Weld Fit-Up | Pressure Testing

CERTIFICATIONS & CREDENTIALS

NCCER Pipefitting Level 4 | OSHA 30 | TWIC Card | H2S Alive | Confined Space Entry | Rigging & Signaling | Available to Travel
